A message to ALL Republicans concerning...

Ronald
REAGAN

"...the issues of our time override party considerations... they are issues all of us — Democrats, Republicans, Independents — must face and solve together. The greatness of our nation depends not on any clique of professional politicians, but on a government that will lead in mobilizing the great strength and ability and creative energy of our people..."
Governor Reagan's Concept of Government

Government was created by "We the People"... it exists for the convenience of the people and we can give to government no power we do not possess as individuals... the citizen does not earn to support government, but supports government so that he may be free to earn... Because there can be no freedom without law and order, every act of government must be approved if it makes freedom more secure and disapproved if it offers security instead of freedom.
