

## **NET Radio Announces New Falls City Frequency 88.9 FM**

NET Radio is pleased to announce the launch of a new frequency, 88.9 FM, in the Falls City/Humboldt listening area. Located near Shubert in Richardson County, this new translator replaces the NET Radio translator which was taken off the air in September in order to avoid interference with a new station.

“We are so happy to be back on the air in far southeast Nebraska. We hope listeners enjoy our upcoming holiday specials and we thank them for their patience,” said NET Radio Manager, Nancy Finken.
