

NET Television to Broadcast Medicaid Expansion Hearing on Feb. 28

NET Television will carry live coverage of the Nebraska Legislature's Health and Human Services Committee public hearing on a proposal to expand Medicaid to cover tens of thousands of low-income Nebraskans.

The hearing on LB577 begins Thursday, Feb. 28, at 1:30 p.m. CT on NET2 World. It will also be streamed live on the NET website (netNebraska.org). Due to previous commitments, NET Television is not able to continue live television coverage past 6 p.m. CT, but live streaming of the legislative hearing will be continued on the NET website, if necessary.

LB577 addresses whether or not the state should expand Medicaid coverage to the population allowed under the national Affordable Care Act, which would include low-income families and other adults with incomes up to 138 percent of the federal poverty line.

NET2 World is part of NET Television. NET Television and the NET website are services of NET. For complete program schedules, visit NET's website at netNebraska.org.
