

Birds Don't Play
Basketball!

BY:
PATRICK Herink

Billy The Blue jay loved basketball. He wanted to play on the team, but the human players told him "Birds don't play basketball!"

Billy The Blue Jay did not give up. He learned to dribble, pass and shoot the basketball. He practiced every day.

The human players saw Billy practicing hard and how much he loved to play basketball. They felt bad they had told him that he couldn't play with them.

They asked Billy to
play on their team for the
big game Friday night. With
Billy's help they beat the
Cardinals.
