Good Life. Great Environment.

DEPT. OF ENVIRONMENTAL QUALITY

DEC 14 2017

CONSTRUCTION AND OPERATING PERMIT

John Snover and Colton Schafersman dba Memory Lane Farms, LLC Animal Feeding Operation (IIS No: 110085)

Legal Description: NE 1/4, NE 1/4, Section 32, Township 19N, Range 08E, Dodge County

John Snover and Colton Schafersman dba Memory Lane Farms, LLC Animal Feeding Operation is issued this Construction and Operating Permit with the following terms and conditions:

1) This Construction and Operating Permit covers the operation described in the application approved on December 13, 2017 by the Nebraska Department of Environmental Quality (Department) and any subsequently approved addendums. This Construction and Operating Permit is issued for the maximum number of livestock and number of confinement structures as listed below.

Type(s) of Livestock	Maximum Capacity (# of head)	Existing or Proposed?
Chickens (Pullets/Cockerels)	60,000	Proposed

Type(s) of Structures	Number of Structures	Existing or Proposed?
Dry Litter Barns	4	Proposed

- 2) Construction shall be completed as described in the approved application.
- 3) The Department shall be notified, in writing, upon completion of construction.
- 4) The Permittee shall allow the Department access, at any reasonable time, to the operation and any records required under Title 130, Livestock Waste Control Regulations and this permit.
- 5) The Permittee shall obtain approval from the Department prior to making any modifications or changes to the design or operation of the LWCF.
- 6) The operation shall be constructed and operated in compliance with the approved application, this permit, Title 130 regulations and the laws of the State of Nebraska. This permit may be revoked, modified or suspended as provided for in Title 130 regulations.
- 7) If construction of the structures as listed above has not begun within two (2) years after issuance of this Construction and Operating Permit, the Permittee shall notify the Department thirty (30) days before starting construction.

- 8) If changes to the nutrient management plan are substantial, a public notice will be published on the Department's webpage for a period of fifteen (15) days. The following items of the nutrient management plan in the application approved on December 13, 2017 are terms of this permit:
 - a. Adequate storage of manure, litter and process wastewater, including procedures to ensure proper operation and maintenance of the storage facilities.
 - b. Proper management of mortalities to ensure that they are not disposed of in a liquid manure, storm water or process wastewater storage or treatment system that is not specifically designed to treat animal mortalities.
 - c. Clean water is diverted, as appropriate, from the production area.
 - d. Prevent direct contact of confined animals with waters of the State.
 - e. Chemicals and other contaminants handled on-site are not disposed of in any manure, litter, process wastewater or storm water storage or treatment system unless specifically designed to treat such chemicals and other contaminants.
 - f. Appropriate site-specific conservation practices to be implemented, including as appropriate buffers or equivalent practices, to control runoff of pollutants to waters of the State.
 - g. Protocols for appropriate testing of manure, litter process wastewater and soil.
 - h. Protocols to land apply manure, litter or process wastewater in accordance with site specific nutrient management practices that ensure appropriate agricultural utilization of the nutrients in the manure, litter or process waste water using either a narrative rate or linear approach.
 - i. Specific records that will be maintained to document the implementation and management of the elements described above.

Pursuant to a Delegation Memorandum dated August 22, 2016 and signed by the Director, the undersigned hereby executes this document on behalf of the Director.

Shelley Schneider, Water Permits Division Administrator
