- *Coded Bias* Official Film Website
- *Coded Bias* Discussion Guide
- NET *Coded Bias* screening page with chat transcript

DEI and Civil Rights Resources

These organizations advocate for diversity, equity, and inclusion as well as raise awareness around the ramifications of algorithmic bias on the legal system and our civil liberties.

- Inclusive Communities
  Inclusive Communities provides education and advocacy around diversity, equity, and inclusion through youth, community and workplace human relations, and leadership programming.
- Algorithmic Justice League
  The Algorithmic Justice League is an organization that combines art and research to illuminate the social implications and harms of artificial intelligence.

- Institute for Digital Humanity
  The IDH is a student-run think tank that advocates for civil rights issues connected to advances in technology.
- Alethicist.org
  A global repository of reference & research material for anyone interested in the current discussions on AI ethics and impact of AI on individuals and society.

Technology and Education

These organizations focus on increasing access and encouraging diversity in the tech sphere.

- Nebraska Tech Collaborative
  The Nebraska Tech Collaborative (NTC) is comprised of over 100 business, government, education, and non-profit partners all working together to drive results and scale to build a world class tech ecosystem in Nebraska.
- DoSpace Omaha
  Do Space is a technology library open to everyone in Omaha, providing free access to the latest software, devices, and ultra-fast internet.

- AIM Brain Exchange
  The Brain Exchange hosts free activities for youth to learn coding and technology.
- Highlander Accelerator + The Connect
  Offering free access to wifi, printing services, hardware rentals, creative software, meeting spaces, and educational workshops.
- UNL Tech Edge + Code.org
  Offering Code.org's K-12 computer science professional learning to Nebraska teachers.

- [Emerging Ladies Academy](#)
  Dedicated to providing tech education, mentorship, and a safe space for Black girls to develop a bright future as skilled workers and leaders in science, technology, engineering, arts and math.
- [SheCodes: Coding Workshops for Women](#)
  SheCodes is here to help bridge the gender gap in the tech programming industry by providing knowledge that is becoming necessary in today's increasingly technological job market.
- [You Go Girl Omaha](#)
  Committed to encouraging, empowering and inspiring girls and young women, their mission is to end the cycle of self-doubt and low self-esteem by creating unique experiences that amplify our founding pillars: self-love, self-awareness, wellness, education, and leadership.
- [Mystery Code Society](#)
  Mystery Code Society offers free, beginner to intermediate coding education to women, femmes, and non-men.

Thank you to Inclusive Communities for their help in planning this event!

INCLUSIVE COMMUNITIES

Embracing diversity ...
strengthening community
